# TOP DESTINATIONS

---

Discover Ethiopia's UNESCO wonders—from volcanic deserts and mountain sanctuaries to medieval marvels and living tribal traditions—where earth's drama meets humanity's oldest stories.

**Aksum (Axum)**

## **Simien Mountains National Park**

Dramatic jagged peaks, deep valleys, and rare wildlife like the Gelada monkey and Ethiopian wolf.

## **Rock-Hewn Churches of Lalibela**

11 medieval churches carved entirely from rock, with Bet Giyorgis as the iconic cross-shaped masterpiece.

## **Danakil Depression**

A surreal, Mars-like landscape of Erta Ale's lava lake, neon-acid springs, and salt flats worked by Afar nomads.

### **Tiya Megaliths**

These enigmatic stones, some towering over 2 meters tall, are adorned with intricate carvings of swords and other symbols that scholars believe may represent ancient burial rituals or forgotten warrior traditions.

### **Fasil Ghebbi (Gondar)**

These architectural marvels were commissioned by Emperor Fasilidas and his successors, featuring grand banquet halls, sunken baths filled by aqueduct systems, and ornate stonework.

### **Harar Jugol**

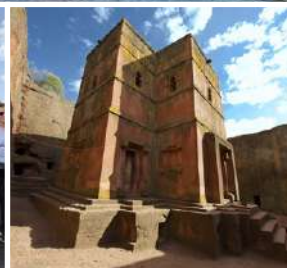

Step into Harar Jugol's labyrinthine alleys where the scent of spices mingles with the call to prayer, and witness the ancient tradition of hyena men feeding wild hyenas by hand under the glow of flickering lanterns.

### **Lower Valley of the Omo River**

Here, Mursi women wear striking clay lip plates as symbols of beauty and identity, Hamar warriors undergo bull-jumping ceremonies to prove manhood, and Karo artists paint their bodies with intricate white chalk patterns to attract mates and intimidate rivals.

# WHY TRAVEL WITH US
